

**Accord of Co-operation  
between Malta  
and the County of East Sussex,  
the United Kingdom**

The signing of this Accord will take forward and enrich the strong historical links that exist between Malta and England.

By signing the Accord, Malta and the County Council of East Sussex signal their wish to develop long-term and constructive links, to define common strategies, and to realise the potential which exists to promote the joint development of projects to the benefit of both partner.

These objectives will be pursued on the key themes, which are economic development, tourism, culture, the environment, and education, all of which will encompass the concept of sustainability.

We will, thereby, contribute to the development of co-operation, regeneration, mutual understanding and friendship between the peoples of Malta and East Sussex, as well as the organisations we represent.

*Signed in Naxaar, this day .....2004*
