Looking after your park and yourself

Please keep yourself and others safe and protect the animals and plants which live here, the peace of the countryside and the livelihoods of the farmers who look after it.

- Plan your route ahead and stay on the paths marked by the numbered posts. Each post has a number (shown on the map overleaf) so you can work out where you are.
- Make sure that you wear suitable clothing and footwear and carry some food & drink if you plan to stay out for a long time. A mobile phone will help if there’s a problem. If you have a Smartphone you can use the QR codes on the signs to find out where you are and more about the park.
- Please close every gate you open and leave property as you find it.
- Leave farm animals to graze in peace and avoid areas of crops.
- Especially keep dogs under control. Farmers have the right to destroy those endangering their animals. Please ensure that you clean up after your dog.
- Litter spoils the area for everyone and can injure or kill farm animals and wildlife. Please take it home.

Nature is good for you!

Nature on your doorstep

Want to help?

The dedicated Countryside Park Ranger leads regular conservation task days.

Contact Green Gym and use our QR code at the Entrance to the car park.

By public transport:

- Train services stop nearby at Bexhill, West St Leonards and Crowhurst stations.
- Number 98 and 99 bus services run regularly along Bexhill Road. For more information visit:

By cycle:

- The NCN 2 runs north of the beach.
- Try one of the numerous paths into the park.

For more information on the park and to find out about guided walks and other activities, visit our website - www.combevalleycountrysidepark.com

Or alternatively, use our QR code with your Smartphone to find out where there's a problem. If you have a Smartphone you can use the QR codes on the signs to find out what you are and more about the park.

A perfect group day out

Nature is good for you!
